

Web-Based Project File Submission Form

Share your successful project ideas with other TASC member schools. Complete the form below and email the submission to TASC (tiffany@tassp.org). Projects will be categorized and cross referenced and posted on the TASC website. While the description should be relatively brief, please include enough details so that other schools can organize a similar activity using your information. Schools submitting a project idea electronically can receive 10 points on the Outstanding Student Council report form. Please note: only 10 points in total will be awarded (not 10 points per submission).

TITLE OF PROJECT or ACTIVITY: Be free of disease

DETAILED DESCRIPTION OF THE PROJECT or ACTIVITY:

Please include the project objective, target group, resources used and a step-by-step description. If possible, please attach samples or pictures of your project.

objective : To increase awareness of the first defence to disease.

Target group: HMS students 400 and then spread to the community by word of mouth.

Resources: Markers, Poster board, School Nurses posters, Flour (1 5lb bag) announcement time.

We did announcements r/g proper handwashing, made posters and hung around the school and in the restrooms on hand washing. Then the next week several stu-co members meet just before the last block class and dipped their hands in flour and mixed in with the students when the bell rang touching as many students without them knowing it as they could. Then when the announcements came on they announced that the flu virus as well as the common cold could spread the same way as being touched by someone with flour on their hands, now look around in your class and see if anyone has white on them from being touched by stuco member. Tag you could have just come in contact with the flu or passed it around....Make sure you wash your hands.
