

Web-Based Project File Submission Form

Share your successful project ideas with other TASC member schools. Complete the form below and email the submission to TASC (tiffany@tassp.org). Projects will be categorized and cross referenced and posted on the TASC website. While the description should be relatively brief, please include enough details so that other schools can organize a similar activity using your information. Schools submitting a project idea electronically can receive 10 points on the Outstanding Student Council report form. Please note: only 10 points in total will be awarded (not 10 points per submission).

TITLE OF PROJECT or ACTIVITY: Boyd Goes GREEN

DETAILED DESCRIPTION OF THE PROJECT or ACTIVITY:

Please include the project objective, target group, resources used and a step-by-step description. If possible, please attach samples or pictures of your project.

The objective of this project was to establish a recycling system on our school campus and raise awareness among the faculty and student population about eco-friendliness. The target group for this project was our student population as well as the entire on-campus faculty. In order to conduct this project we worked co-operatively with the IESI (local recycling facility), our McKinney Boyd chapter of the Environmental Activists Club, and recycled boxes to use for the actual recycling itself. We also used recycling bins provided by the IESI. The first step to this project was to collect gently used cardboard boxes and attach laminated signs to them which described acceptable recyclable items. Next we e-mailed the entire McKinney Boyd staff and asked who would be interested in participating in our project. Boxes were dropped off in each staff member's room and weekly a member of either the Environment and Energy board, or the Environmental Activist Club would empty the boxes into a recycling bin. The recycling bins would be placed behind the school to be picked up by IESI and then the bins would be replaced.
