

**Group Process : Miracle****4 Basic Stages of Group Development**

In the movie “Miracle”, Coach Herb Brooks takes a group of strong willed, underdeveloped hockey players through the 4 stages of group development. With 2-3 sentences, explain when the team experienced each of the different stages. Also explain what role (what actions) did Coach Brooks play in each situation. Finally, give a number of 1-10 (10 as high) of the effectiveness he had in each stage as a leader.

Think of the last group situation you have been a part of where the group members were somewhat new to one another. Good examples might include a classroom situation, musical or drama, sports team or workplace. List it here : \_\_\_\_\_
