

Let's Make Recycled Dog Toys

Sandra Day O'Connor Student Council

OVERVIEW → In this project the O'Connor Student Council held a t-shirt drive prior to the start of the project. Following the t-shirt drive we began to create recycled 'home made' dog toys made from strips of the donated t-shirts. After creating a good amount of toys from the shirts we received, we donated the toys to the Helotes Humane Society.

CONTACT

We contacted the Helotes Humane Society to donate Dog Toys made from donated t-shirts.

Steps

1. Initiation → Call or email to offer and ask if that particular organization would like to partner for the project.
2. Progress Reports → Be sure to maintain contact throughout the project to ensure a healthy relationship with the organization you're working with.
3. Drop Off → This final step is more important than you would think! These organizations like to appreciate the donor and what they have provided so be sure to communicate a good time to drop off the donation and bring a few students.

ORGANIZATION

It's always important to understand the importance of maintaining organization in any projects. Organization includes creating schedules and being aware of deadlines.

INVOLVEMENT

School involvement is also a major factor in successful projects.

- Posters
- Announcements

COMMITTEES

This project falls under two Stu. Co. Committees

- Community Service
- Energy and Environment

STEPS

1. Cut donated t-shirts into 1 to 2 inch strips.
2. Take 3 t-shirt strips, tie them with a knot at the top, and braid them.
3. Take 3 braids, tie them together, and braid them.
4. Tie a second knot at the end.
