# TASSP/TASC Student Leadership Class

## TEA just approved the State Credit Student Leadership Class for the next five years!

This versatile class is a course for students who seek to expand and deepen their group and individual skills in order to positively impact their lives and community. It can be offered to established student leaders, emerging leaders, at-risk students, or student leadership groups. The Student Leadership Class benefits your students, your organizations, and your campus.

### High School graduates say:

- “Leadership Class does more than teach a curriculum. Leadership focuses on development of character and forces you to look deeper at your moral compass, which is something that no other class provides. I learned to be independent and properly identify actions and steps I need to better my life. The skills this class taught me will take me farther than any other class I have taken.”
- “The most valuable thing I gained from the program was confidence. This class gave me the confidence to show up to the world as my authentic self. It made me believe I had something valuable and special to offer. It proved to me that with teamwork we could do big, powerful, important things. It taught me that regardless of my age, background, or experience, I could make an impact in the world by simply putting in hard work and showing up with a smile every day.”
